Dat Le-Tien

Developer

I am a 24 years old techie with 3 years experienced in software engineering. I love crafting new things, studying new technologies and life hacking.

Education

Since 2015	**Student of Master program**; Ho Chi Minh University of Science, HCMC
	Currently freshman, *Computer Science*
2010-2014	**BSc, Computer Science**; Ton Duc Thang University, HCMC
	Top 5 highest GPA student graduated in IT Faculty in 2014

Technical Skills

Platform

I love making tools to do automation as well as participate in open source communities playground. Platforms listed below are my favorite environment

- Large-scaled system
- Web server
- Linux/MacOS

Programming Languages

Most of them are open source

- *Development* - Ruby, Golang, Java, Shellscript, node.js
- *Database* - PostgreSQL, Sqlite
- *UI* - Javascript, HTML, CSS
- *Version Control* - Git, SVN

Methodology

Agile-scrum

Waterfall

Basic knowledge of **C/C++**, **Python**, **C#**, **PHP**

Projects

McKI (12-2013 to current)

A project for McKesson (Top 5 Fortune Company) named **MSSS** that help replenish Healthcare facilities/supplies, purchase items and make insight reports to manage supply chain, item, cost saving... for hospitals in the US.

In McKI, we control all technical aspects of **MSSS** including AWS, databases, microservices and full source code.

Rubyspace (6-2013 to 12-2013)

A bootcamp for junior Ruby Developer *learn stuff themselves* - with support by experienced Ruby developer.

Personal

Human Languages

Vietnamese (Native speaker)

English

Mindset

Why-What-How approaching thinker

Sports

Running, Tennis, Table Tennis, Badminton, Football ...

Hobbies

In my pleasure time

- Outdoor: Hiking, Photography, Meetup
- Indoor: Reading Fantasy Novel, Quora, Playing PC Games, Singing, Cooking, Papercraft
